Fund Commentary

The Affluence Investment Fund increased by 0.1% in February, outperforming the ASX 200 Index which fell 2.4%. Since commencing over seven years ago in December 2014, the Fund has returned 7.9% per annum, including 6.5% per annum monthly distributions to investors. This is in line with our target of inflation plus 5% (7.9%) per annum.

Our largest positive contributors in February included the Bronte Amalthea Fund, our holding in Kiland Ltd (KIL), and our holding in US Masters Residential Property Fund (URF). The largest detractors were the Baker Steel Gold Fund and the EGP Concentrated Value Fund.

Australian and global equity markets gave back some of their recent gains in February, as listed companies reported mid-year earnings. We continue to be cautiously positioned. The significant increases in interest rates are still working their way through the economy and are not yet reflected in company earnings.

At month end, 61% of the portfolio was invested in unlisted funds, 15% in the Affluence LIC Fund, 10% in listed investments, 1% in portfolio hedges and 13% in cash. If you would like to know more about the investment portfolio, including our top holdings and weightings,

visit the Affluence Investment Fund page at <https://affluencefunds.com.au/aif/> or the Members area of our website. You must be registered as an Affluence Member to view the portfolio.

If you would like to invest with us and get access to a diverse range of Australia's fund managers, including over 20 unlisted funds as well as more than 20 LIC's and other listed entities, visit the fund page on our website. There, you can get information on the Fund, apply online or download the application pack. If you'd like to add to your existing investment in the Fund, you can either complete the one-page form available on our website or use the online facility.

The cut-off for applications this month is 24th March. Units will be issued effective 1st April.

Is the Fund right for you?	Does it suit your portfolio?	Why invest with Affluence?
<p>We created the Affluence Investment Fund as a vehicle in which we could invest the majority of our wealth for the long term. The Fund is diversified by asset class, investment strategy, manager and geography.</p> <p>It is managed with the mindset of a family office or endowment fund. It seeks to achieve above average medium and long-term returns while paying monthly distributions and taking below average levels of risk.</p> <p>We believe that to achieve better than average returns, you need to invest differently. We believe that value investing works best in the long run. We believe that being aware of long-term cycles can significantly improve performance. And we believe that success requires a long term focus, which in turn requires patience and discipline.</p> <p>If you share those beliefs, the Fund may be suitable for you.</p>	<p>The Fund is designed to be used as a Core or Satellite Component of an investment portfolio for those investors seeking Capital Growth and Income Distributions with a Medium or longer investment timeframe, at least a Medium risk/return profile and needing access to capital Monthly or less often.</p> <p>The Fund has achieved its returns with lower volatility than the Australian share market, and has historically outperformed the ASX200 when markets fall significantly.</p> <p>As with all investments, the Fund is subject to risks. The value of an investment will go up and down over time, the Fund's returns will vary, future returns may differ from past returns, and returns are not guaranteed. This means that there is always the chance that you could lose money on an investment in the Fund.</p>	<p>We pride ourselves on the quality of our products and alignment with investors.</p> <p>We were the first investors in each of our funds. A significant proportion of our own and extended families wealth is invested in Affluence funds.</p> <p>We charge no fixed management fee for any of our funds. Instead, we charge a performance fee of 12.5% of positive returns. This encourages us to focus on generating strong returns, while managing risk and limiting losses. If our investors do well, we will do well.</p> <p>We believe managing less money than average provides us with significant advantages. So we don't aim to be the biggest manager. We do aim to be one of the best. We are proud of our performance record to date.</p>
