Investment Objective

The Fund targets a minimum annualised return of inflation plus 5% over rolling three year periods.

Investment Strategy

The Fund holds a diversified portfolio and can invest across all asset classes. The portfolio includes over 20 different underlying managers and other investments selected by Affluence. The strategy seeks a balance between maximising returns, delivering regular income and lowering volatility.

Why Use The Fund?

Portfolio Use

The Fund is designed to be used as a **Core** or **Satellite** Component of an investment portfolio for those investors seeking **Capital Growth and Income Distributions** with a **Medium** or longer investment timeframe, at least a **Medium** risk/return profile and needing access to capital **Monthly** or less often.

Access to Differentiated Strategies

The Fund provides access to a wide range of different investment strategies, through boutique investment managers.

Access to Closed and Wholesale Funds

A significant number of funds in the portfolio are only available to wholesale investors, or closed to new investors.

Key Risks

As with all investments, the Fund is subject to risks. Key risks include concentration risk, economic and market risk, legal and regulatory risk, manager and key person risk, liquidity risk, leverage risk and currency risk. We aim, where possible, to actively manage risks. However, some risks are outside our control.

Fund Commentary*

The Affluence Investment Fund increased by 0.5% in June, lagging the ASX 200 Index which increased 1.8%. Since commencing over seven years ago in December 2014, the Fund has returned 7.7% per annum, including 6.4% per annum monthly distributions to investors.

Our largest positive contributors in May included Unibail Rodamco Westfield (URW), the Pzena Emerging Markets Value Fund and the Totus Capital Alpha Fund. The largest detractors were the Affluence LIC Fund, the Attunga Power & Enviro Fund and our index hedges.

Australian and global equity markets increased in June, even as central banks continue to increase interest rates. For the FY23 financial year the ASX 200 Index was up 14.8%, the ASX Small Ords up 8.4%, the S&P 500 up 19.6% and the NASDAQ up an incredible 25%. However, the starting point in July 2022 was after a significant correction in the previous 6 months. We think of this 'new period' having commenced from 31 December 2021, which is when markets started pricing in interest rate rises and acknowledged inflation had become entrenched. Over the past 18 month period only the ASX 200 is in positive territory, with the ASX Small Ords down -17%, the S&P 500 down -4% and the NASDAQ down 12%.

We trimmed our equity exposure in June by selling some holdings, as we believe the risk versus reward for equity

markets is diminishing. We plan to use the proceeds of the sales and some of our existing cash holdings to increase our fixed interest exposure, as there are very attractive risk adjusted returns on offer in this space.

At month end, 59% of the portfolio was invested in unlisted funds, 15% in the Affluence LIC Fund, 1% in the Affluence Small Company Fund, 12% in listed investments, 2% in portfolio hedges and 12% in cash. If you would like to know more about the investment portfolio, including our top holdings and weightings, visit the Affluence Investment Fund page at <https://affluencefunds.com.au/aif/> or the Members area of our website. You must be registered as an Affluence Member to view the portfolio.

If you would like to invest with us and get access to a diverse range of Australia's fund managers, including over 20 unlisted funds as well as more than 20 LIC's and other listed entities, visit the fund page on our website. There, you can get information on the Fund, apply online or download the application pack. If you'd like to add to your existing investment in the Fund, you can either complete the one-page form available on our website or use the online facility.

The cut-off for applications this month is 25th July. Units will be issued effective 1st August.

Is the Fund right for you?	Does it suit your portfolio?	Why invest with Affluence?
<p>We created the Affluence Investment Fund as a vehicle in which we could invest the majority of our wealth for the long term. The Fund is diversified by asset class, investment strategy, manager and geography.</p> <p>It is managed with the mindset of a family office or endowment fund. It seeks to achieve above average medium and long-term returns while paying monthly distributions and reducing risk using diversification and other strategies.</p> <p>We believe that to achieve better than average returns, you need to invest differently. We believe that value investing works best in the long run. We believe that being aware of long-term cycles can significantly improve performance. And we believe that success requires a long term focus, which in turn requires patience and discipline.</p> <p>If you share those beliefs, the Fund may be suitable for you.</p>	<p>The Fund is designed to be used as a Core or Satellite Component of an investment portfolio for those investors seeking Capital Growth and Income Distributions with a Medium or longer investment timeframe, at least a Medium risk/return profile and needing access to capital Monthly or less often.</p> <p>The Fund has achieved its returns with lower volatility than the Australian share market, and has historically outperformed the ASX200 when markets fall significantly.</p> <p>As with all investments, the Fund is subject to risks. The value of an investment will go up and down over time, the Fund's returns will vary, future returns may differ from past returns, and returns are not guaranteed. This means that there is always the chance that you could lose money on an investment in the Fund.</p>	<p>We pride ourselves on the quality of our products and alignment with investors.</p> <p>We were the first investors in each of our funds. A significant proportion of our own and extended families wealth is invested in Affluence funds.</p> <p>We charge no fixed management fee for any of our funds. Instead, we charge a performance fee of 12.5% of positive returns⁴. This encourages us to focus on generating strong returns, while managing risk and limiting losses. If our investors do well, we will do well.</p> <p>We believe managing less money than average provides us with significant advantages. So we don't aim to be the biggest manager. We do aim to be one of the best. We are proud of our performance record to date.</p>
