Fund Commentary

The Affluence LIC Fund decreased by 0.9% in May, outperforming the ASX 200 Index which decreased by 2.5%. Since the Fund commenced over seven years ago, returns have averaged 11.1% per annum, including quarterly distributions of 7.9% per annum. The Fund has outperformed the ASX200 Index by 2.4% per annum since inception, with significantly lower volatility.

Equity markets were choppy in May, with the Australian and global benchmarks ending the month lower. Investors continue to scrutinise every piece of macro-economic data looking for evidence of an emerging recession as a result of the sustained increase in interest rates. Both in Australia and globally economies have shown incredible resilience, however inflation has been slow to come down. We continue to be cautious as equity markets are far from cheap, and they appear to be pricing in a goldilocks scenario.

The major positive contributors in May included the CD Private Equity Series (CD1, CD2, CD3) and WAM Strategic Value (WAR). The biggest negatives were Ryder Capital (RYD) and Tribeca Global Natural Resources (TGF).

At the end of May the Fund held 31 LICs representing 70% of the Fund, 2% in portfolio hedges and 28% in cash.

The average NTA discount for the LIC portfolio at the end of the month was approximately 18.5%, compared to the 18.1% discount at the end of May.

The Affluence LIC Fund is open to new and existing investors. Applications are accepted monthly. The minimum initial investment amount is \$20,000. The cut-off for applications is the last business day of the month, with units issued effective the first day of the following month. Is the Fund right for you?	Does it suit your portfolio?	Why invest with Affluence?
<p>The Affluence LIC Fund is one of the only funds in Australia that focuses on investing in LICs. Despite the large size of the LIC sector, there is relatively limited attention from institutional researchers and professional investment managers. This can provide more opportunities for mispricing than in other areas of the stock market. In addition, some quality investment managers can only be accessed through LICs.</p> <p>Through LICs, the Fund provides access to Australian and global equities as well as some exposure to other asset classes. These LICs use a broad range of investment styles and investment strategies.</p>	<p>The Fund is designed to be used as part of an investment portfolio for those investors seeking Capital Growth and Income Distributions with a longer investment timeframe, at least a High risk/return profile and needing access to capital Monthly or less often.</p> <p>The Fund has outperformed its benchmark (ASX200 Index) with lower volatility since inception, and has historically outperformed when markets fall significantly.</p> <p>As will all investments, the Fund is subject to risks. The value of an investment will go up and down over time, the Fund's returns will vary, future returns may differ from past returns, and returns are not guaranteed. This means that there is always the chance that you could lose money on an investment in the Fund.</p>	<p>We pride ourselves on the quality of our products and alignment with investors.</p> <p>We were the first investors in each of our funds. A significant proportion of our own and extended families wealth is invested in Affluence funds.</p> <p>We charge no fixed management fee for any of our funds. Instead, we charge a performance fee of 12.5% of positive returns. This encourages us to focus on generating strong returns, while managing risk and limiting losses. If our investors do well, we will do well.</p> <p>We believe managing less money than average provides us with significant advantages. So we don't aim to be the biggest manager. We do aim to be one of the best. We are proud of our performance record to date.</p>
