

Affluence Small Company Fund

Fund Report - April 2019

Fund Commentary

The ASX Small Ordinaries Index increased by 4.1% in April. The Affluence Small Company Fund increased 1.0%, with the Fund now returning 3.6% per annum since inception in April 2016. The Fund has underperformed its benchmark (ASX Small Ordinaries) since inception, however it has delivered its returns with lower volatility than the ASX Small Ordinaries.

Our best performing funds this month were the Microequities Deep Value Fund (up 4.8%) and the Spheria Australian Microcap Fund (up 3.6%). The biggest detractor was the Terra Capital Natural Resources Fund.

We added the Lennox Australian Small Companies Fund to the portfolio at the end of the month. Lennox was founded by James

Dougherty and Liam Donohue who were previously portfolio managers for the Macquarie Australian Small Companies Fund. During their stewardship of the Macquarie fund they consistently delivered top quartile performance compared to their peers. They describe themselves as style agnostic, and spend considerable effort on trying to avoid those companies that will disappoint the market.

At the end of April, the Affluence Small Company Fund held investments in 7 unlisted funds (including the Affluence LIC Fund) representing 97% of the total portfolio, and the balance 3% cash.

The Affluence Small Company Fund is now open to Wholesale and Sophisticated Investors. We held

off opening the Affluence Small Company Fund for quite some time. We wanted to wait until we felt conditions were appropriate. It feels like now is the right time. Not only do we see pockets of extraordinary value in some areas, but we are confident that all the managers we have or plan to invest with, have the potential to outperform substantially over the long term.

If you qualify as a wholesale or sophisticated investor and are interested in the Fund, contact us or visit the website to find out more. The cut-off for this month's applications is 24th May. Units will be issued effective 1st June.

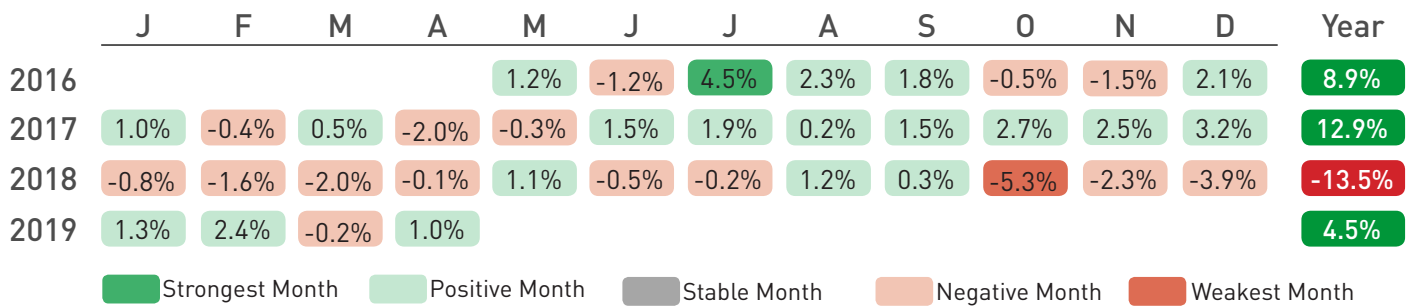

Fund Performance

To 30 April 2019

	1 Month	1 Year	2 Years	3 Years	Inception	Volatility
Affluence Small Company Fund	1.0%	(5.3%)	1.5%	3.6%	3.6%	6.9%
ASX Small Ordinaries Index	4.1%	7.2%	12.7%	11.8%	11.8%	12.2%
Outperformance against ASX Small Ords Index	(3.2%)	(12.4%)	(11.2%)	(8.2%)	(8.2%)	

Total returns are net of fees and costs (excluding buy-sell spread) using the mid prices and assume the reinvestment of distributions. Returns of more than 1 year are annualised. Inception date is 21 April 2016.

What Makes This Fund Different

Traditional Fund Managers	Affluence - Invest Differently
Follow The Herd: Traditional managers are too scared to fail, so they don't succeed. Most don't outperform the index.	Actively Pursue Out-performance: From our fee structure alignment to our investment methodology, our strategy targets positive returns and low volatility.
Restricted Product Selection: Commonly places clients into their own managed funds or choose from a restricted list of 'approved' funds.	Best Of Breed: We will seek the best fund managers, and combine them in a way which cushions against market corrections.
Traditional Asset Classes: Manage large amounts in traditional asset classes (e.g. ASX200 equities), which minimises chances of excess performance.	Unique Strategies: We prefer managers who operate in specialised markets with less funds under management and a competitive advantage.
High, Fixed Fees: Take fees regardless of performance.	No Fixed Fees: Our fees are 100% performance based.

Key Statistics

Buy/Sell Spread	0.35%/0.35%

Investment Strategy

We believe that exposure to Small Company stocks through quality investments across different managers, investment strategies and structures can provide higher risk adjusted returns from this asset class.

The Fund provides access to a diversified portfolio of Small Company Equities unlisted funds and LIC's as selected by Affluence. We aim to outperform the ASX Small Ordinaries Accumulation Index over rolling 5 year periods and to deliver these returns with lower volatility.
