What Makes This Fund Different

Traditional Fund Managers	Affluence - Invest Differently
Follow The Herd: Traditional managers are too scared to fail, so they don't succeed. Most don't outperform the index.	Actively Pursue Out-performance: From our fee structure alignment to our investment methodology, our strategy targets positive returns and low volatility.
Restricted Product Selection: Commonly places clients into their own managed funds or choose from a restricted list of 'approved' funds.	Best Of Breed: We will seek the best fund managers, and combine them in a way which cushions against market corrections.
Traditional Asset Classes: Manage large amounts in traditional asset classes (e.g. ASX200 equities), which minimises chances of excess performance.	Unique Strategies: We prefer managers who operate in specialised markets with less funds under management and a competitive advantage.
High, Fixed Fees: Take fees regardless of performance.	No Fixed Fees: Our fees are 100% performance based.
